

Is your section wide without much depth? This home is designed for this exact situation! Morning sun can stream through three bedrooms, both bathrooms, the kitchen and dining. Inside the master is positioned separately from the other rooms with its own outdoor covered space. The main lounge is cleverly offset from the living, creating a sheltered outdoor space for the midday/evening sun as well as giving the kitchen two viewpoints outside. This home will not disappoint!

Floor Area: 208m²
